Editor Bow Island Review

Dear Sir:

I noticed in your issue of Feb. 11th, an article by a local farmer on improving conditions generally, and how it behooved the farmers to work together for the welfare of not only themselves but the country at large. I have nothing but praise for the sentiments expressed in the main part of his article, and do not intend to comment on it, but in the last paragraph there is a sting that the majority of farmers resent viz that the farmers who support the wheat pool that is proposed are in the same class with the Manufacturers Association like the proposed co-operative marketing of grain, (as the "Wheat Pool" really means) to an organization that is not and not a protective association for the manufacturers in Canada is rather far fetched. The grain farmers have time and again endorsed free trade in food stuffs, as your correspondent well knows, and to charge them with protection aims for wheat as the article implies is an insult to every thinking farmer. Everybody knows that the present system of grain marketing is unfair and unjust, and that a bushel of No. 1 wheat today should be the same price to every farmer, but because one man may get into the elevator an hour before another farmer the last farmer's wheat is several cents a bushel less than the first farmer's.

It is to eliminate this that the wheat pool is proposed and not to try and set the price to the consumer or the miller as some paper claim, and as your correspondent implies when he likens the idea of co-operative marketing to the Manufacturers Association which, as everyone knows, looks after its own interests in the matter of selling prices to the consumer, and also is not above "lobbying." All the Wheat Pool want to do is to see that every farmer who favours it by joining in it's scheme, gets the same price per bushel for the same grade as his neighbour whether he ships his grain early in the fall or later in the season. This would stabilise credit in the fall, as each would know what the initial price would be, and each farmer could know just what he was absolutely sure he had coming to him and could give a satisfactory statement to his creditors and they also could know just what was coming to them by seeing how

much wheat their dealer had, and knowing that he would have at least the initial price plus the actual price at the end of the grain year. This is just what the late "Wheat Board" did, and a more impolitic measure never existed when it was first instituted. The intimations of many papers stampeding many unthinking farmers telling them how much they could have got had it not been for the "Wheat Board" and the selfishness in these farmers made them sigh for the good old days of the Grain Commission Firm competing in the open market. A wise government with an open ear for the demands of many grain growers promptly abolished the iniquitous Wheat Board and reinstated the open market to its former position and a better object lesson could not be taught than is being taught in this present grain year. Now what happens? A more popular institution than the "Wheat Board" never existed, every farmer is in favour of it apparently. It is a truism that if one wishes to be favourably and well spoken of and even popular that one must die. So the "Wheat Board" to get some friends went and died and by how well spoken of it is. The proposed "Wheat Pool" does not intend to try and set the price on wheat any more

than the late "Wheat Board" tried to set the price on wheat last year. No board or pool could set the price of wheat in any year, as our wheat prices are regulated by the buyers in Europe in general, and Britain in particular. What the pool aims at is to eliminate the many hands through which our wheat passes, to eliminate the gambling that is so detrimental to the producer and get it to the consumer with the least possible handling actually and imaginary and I know that many will agree with me that there is to much bunglery handling of our wheat. In the days of the "Wheat Board" the market was open in spite of what many say to the contrary, the dealing in futures was eliminated and handling was also much less than is the case when done by members of the Grain Exchange. Many difficulties must be met and overcome before the "Wheat Pool" can work satisfactorily, but these difficulties are not insurmountable. Difficulties, as a rule, crop up only to be overcome as many farmers in Canada came from the home of the Co-operative Movement they are no afraid of co-operation in the marketing of their grain. In their native land the co-operative movement passed the experimental stage many years ago and they know from experience that it is a boon and a blessing to man. All that the leaders ask is trust, and stick to it, and it will be stamped by press insinuations. Agricola.

HON AND DEARIE

BURDETT

(Continued from back page)

In Tokio a group of Japanese business men have formed a committee and are making a country-wide appeal. The first two subscriptions were for \$10,000 each.

The President of the United States has issued a national appeal and appointed a nation-wide committee to carry forward a great national relief movement as speedily as possible.

Your Help is Needed

Every humanitarian and Christian instinct demand that Canada help and help quickly. The committee representing the Canadian Foreign Mission Boards—Anglican, Baptist, Congregational, Methodist and Presbyterian—appeal to all Canadians to help meet the appalling need. Already fifty thousand dollars have been cabled to China. Hundreds of thousands are needed.

The committee is desirous that all Canadian contributions should go through Canadian channels, that thus the help given to China in her hour of extremity, may go as a Canadian gift. Every contribution may rest assured that all monies received will be safely and wisely administered.

Contributions should be sent to the treasurer of either of the Canadian Boards having Missions in China—Rev. Robert Laird, D.D., Treasurer of the Presbyterian Church, Confederation Life Building, Toronto; J. A. Warrall, Esq., K.C., Hon. Treasurer of the Missionary Society of the Church of England in Canada, 131 Confederation Life Building, Toronto; W. G. Watson, Esq., Treasurer of the Methodist Missionary Society, 299 Queen Street West, Toronto, or to D. A. Cameron, Esq., Manager Canadian

Bank of Commerce, 22 King Street West, Toronto, who has kindly consented to act as General Treasurer to the fund.

P.S.—I will gladly forward any subscriptions to any of the Missionary Societies that may be entrusted to my care.

PERCY JOHNSON, Pastor.

By-Election in

Medicine Hat

To all Locals in the Medicine Hat Constituency.

The death of Hon. A. L. Sifton, representative for Medicine Hat riding in the Federal Parliament, and a member of the Union Government, leaves a vacancy which will, it is expected, necessitate a by-election at no very distant date.

We regret the death of Mr. Sifton, for several years Premier of Alberta. Our annual convention expressed this sympathy by a standing silent vote.

On now devolves the duty as citizens of Medicine Hat Federal riding, of saying who we wish to have to represent us in the Federal House. It is a responsibility not to be lightly regarded. A few years ago a by-election in Medicine Hat Federal riding would have meant very little to us in comparison to what it means today.

Medicine Hat was the first constituency to organize for political action. Now it is our lot to be the standard bearers of the U.F.A., political movement in the Federal field. It is up to our U.F.A. and U.F.W.A. members in Medicine Hat to lead the fight for Political Independence in this Province. The first real contest is ours to fight—will it be ours to win?

We do not know when the election will be called. That is one advantage our opponents have—they will spring the election just when it suits them best. But we can do one thing, and that is the biggest thing there is to do—Organize! There is no better way—no way surer of bringing the desired result. Organize to the last

man and woman. Spring will soon be here again, the time when we must work our farms long, long hours. In the few weeks before spring opens we must be up and doing—working without ceasing in preparation for THE DAY. Our opponents will take the time necessary, and they will have unlimited funds.

We have no special interest offers to draw upon, nothing but the hard work and the hard earned dollars of our struggling farm people. But we have a just cause and thousands who believe in it heart and soul are organized in the U.F.A. and U.F.W.A., and ready to fight till the last vestige of special privilege shall be swept away and we can proclaim the day of Equal Rights for All and Special Privilege to None.

Let us then draw together and buckle on our armor for the coming conflict. It would be too much to expect that the interests opposed to us will leave the field to us. They have too much at stake in the special privileges they now enjoy; they believe they can still succeed by the old methods. They will use every device of political strategy and cunning to frustrate our efforts and divide our forces. They will have the help of many clever professional politicians.

It will be a contest between wealthy, experienced, political strategists and politically inexperienced, plain, poor farmer-folk, seeking only justice and right. But we have an asset of tremendous importance in our organization. It remains, therefore, for each and all of us immediately to bend our energies to bringing into our organization every farmer and farm woman. The women will play a decisive part in this contest. Do not overlook them

or the young people. See that all who are not naturalized are induced to take out their naturalization papers so that they can help us with their votes as well as their influence. This is very important and may make all the difference between victory and defeat.

Your Constituency Association has decided in order to comply with Clause 10 of the Dominion Franchise Act, to turn over all political funds in trust to Central Office. We want to leave no chance for our opponents to destroy our efforts. With the help of expert legal advice Central will see to it that all the technicalities of the Dominion Franchise Act were lived up to. Accordingly all political dues should be sent to Central Office and plainly marked "for Medicine Hat Constituency Association."

Let us stay in the fight till the last bullet is counted and the Victory is ours.

Yours for success,
CHAS. H. HARRIS,
Director Medicine Hat Constituency.

GRASSY LAKE MAN DIES IN CALGARY OF SHRAPNEL WOUND

The death took place in Calgary, where he was rushed, of Samuel Palmer who farmed at Grassy Lake. The deceased was wounded in the war over the eye with shrapnel. It was found impossible to get it all out, and part of it remained in his system working its way suddenly into the brain, causing unconsciousness and ending fatally.

The late Sam Palmer was married, with three children, whom with a widow he leaves behind. Two of his brothers farm in Grassy Lake and Burdett, and a sister, Mrs. Coen, lives in Lethbridge. He was born in Len, Kent, Eng., and previous to enlisting for the war, had been for some years in this country.

Additional Burdett

Burdett, Box 105, Alberta
25th February, 1921

Dear Mr. Editor:

In reply to your Burdett correspondent in the issue of Feb. 11th calling my attention to a statement made by the premier, the Right Hon. A. Heighes, in reference to the "Chinese Pandemic", I am aware that reference has been made through the press to an over-supply of Chinese eggs on the Canadian market, but I do not understand what effect this would have upon the millions of starving people in China.

The following statement will show a vivid contrast to the statement made by your correspondent:

The Situation

North China is in the relentless grip of one of the worst famines of the last thirty years. Conditions are appalling. From thirty to fifty millions in the five provinces of Honan, Shansi, Shantung, Shensi and Chili are facing starvation. The failure of rain for twelve months has meant the total failure of two harvests.

Terrible distress prevails, thousands have already died, hundreds are dying every day. Many are seeking to live on leaves and bark. Authenticated cases are reported of children killing their children rather than see them starve and then in despair taking their own lives.

Recent rains have made possible the sowing of the fields, which give promise of a harvest next June. But the intervening months! The present distress, keen as it is, is but a suggestion of the awful agony through which North China must pass before the winter is over unless relief on a large scale is forthcoming.

Moving Appeals from Many Sources

Before making any appeal, the committee has made the fullest enquiry regarding the situation. From every source cumulative evidence has come of the magnitude and severity of the famine and the urgent need of immediate relief.

From their missions in Honan, our two Canadian Mission Boards, having work in the effected area, are receiving urgent appeals for help.

The Honan Presbytery cables: "The famine has realized our worst fears. Funds for relief are urgently needed." The Anglican Missionaries cable: "Great distress, relief needed immediately."

The secretary of the China Christianization Committee cables from Shanghai to the Canadian Committee that, "the famine is very severe and that help is urgently needed to prevent great loss of life."

A cable from Bishop Lewis, of the Methodist Episcopal Mission, Pekin, states that the famine is deplorable, that already there are a thousand deaths daily, and condition getting worse.

The government of China has sent the following message to the Chinese Consul-General at Ottawa: "Over one hundred thousand localities are affected; millions of people are destitute and dying of famine. Relief fund is urgently needed."

The Department of State at Washington writes that the American Legation at Peking has reported that the famine is severe and widespread, and that an International Committee, composed of men from the various foreign Legations, has been organized and is devoting itself to relief work. Ambassador Crane reports that, inevitably, many millions will die of starvation during the coming months.

What is Being Done

The Chinese, aided by foreign residents, are doing what they can, but the disaster is of such magnitude that they cannot cope with it alone. In Honan a joint relief committee of Chinese and foreigners has been formed, with Rev. G. E. Simmons, of the Canadian Anglican Mission, as Foreign Treasurer, and Rev. H. M. Harris, of the American Southern Baptist Mission, as Foreign Secretary. Shanghai alone has raised \$15,000, 000 for relief and placed an objective of \$15,000,000.

BOW ISLAND

The Inter-Provincial Weed Train reached Bow Island last Wednesday afternoon, a big crowd availed themselves of the opportunity to see many and various kinds of Noxious Weeds and pictures showing their growth, a good lecture was afterwards given, which was highly appreciated by the large crowd of farmers present, although some said, that bigger samples of the same weeds, could be seen all along our roads and highways and along the C.P.R. right-of-way.

It is more than about time, that the Government helped out the south country, by spending money in helping to keep down the Noxious Weeds, which they the Government were about the first to distribute to the farmers here in 1910 when they loaned so called Pure Wheat and Oats to them out which were loaded with every conceivable kind of Noxious Weeds.

The writer weighed several pounds of these Noxious Weeds from Government (Pure) Wheat and Oats, after they had been twice through his Panning mill in 1910.

So, we know who to blame, not the worried farmers, but the Government themselves.

Farmers! Unite and Protect your selves and your families by voting for a good Farmer's Candidate at the next Election and have a Farmer's Government as in Ontario, and when in power be different to the other Governments by standing to your motto "Equity" which should be for every other calling as well as for the farmers.

Mr. A.C. Gage has called a meeting of the executive committee of the Bow Island Amateur Athletic Association for Friday the 26th, at 5:30 p.m. in Mr. Gage's office.
All interested are earnestly asked to be present.

Board of Trade

Notes of Board of Trade meeting held Feb. 21st. 1921.
R.S. Beattie, presiding.

Communication was read from Health Dept. at Edmonton in effect that they had no physician in their employ at this time whom it was possible to send to Bow Island.

A number of applications from qualified physicians were read, following the advertisements published; these applications were discussed at length and committee was instructed to continue in its efforts to secure a physician for this locality.

Accounts were read and ordered paid.
The matter of reinstating night service in the local C.P.R. station, also replacing of heated car service from Lethbridge at least once a week was referred to the secretary for his attention.

The following officers were elected for the ensuing year:
President R.S. Beattie
Vice Pres. J.W. Reid
Sec. and Treas. S.V. Hurst
Executive Committee, Messrs. Ronch, Dulmage, Collen, Gidman, Browning, James and Rolfe.

Following Committees appointed:
Finance: J.W. Reid and Mr. Gladman
Membership, L. Collen J. Still and E. Anderson.

Secretary was instructed to make effort to secure Best Room for use of Board of Trade meetings on first Monday of each month.

For Health's Sake

All places used for Public Meetings should have extra high Ceilings and Good Ventilation and be thoroughly Disinfected before each meeting and Receptacles holding Disinfectants should be in constant use.
